Re: Administrative Order Date Extensions

Dear Mr. Todd:

Based on the information contained in your letter, dated January 6, 1995 to Mr. Benjamin Cohan of this Regional Office, EPA-Region III has decided to grant your request for a thirty (30) day extension to the dates originally provided in our Administrative Order to USX Corporation for the installation of NOx Continuous Emission Monitors (CEMS) at various locations in both of the Clairton and Edgar Thomson facilities. The new Order dates, under Section III. of the original Order entitled "Order for Compliance", are as follows:

3. By March 2, 1995, receive all the necessary equipment for the installation and operation of the required CEMS.
4. By May 1, 1995, complete the installation of the required CEMS on all affected combustion units at the Clairton and Edgar Thomson facilities.
5. By June 6, 1995, complete the testing and check-out phase for all the required CEMS.
6. By June 13, 1995, complete the required certification of the boiler CEMS according to the applicable DER procedures.
7. By June 27, 1995, complete the required certification of the "B" Battery CEM according to the applicable DER procedures.

Once the CEMS are installed, operational, and certified, the information derived from these CEMS must be submitted to the Pennsylvania DER according to their applicable procedures and regulations.

If you should have any questions or comments in regard to this matter, do not hesitate to contact Ben Cohan, of our Office of Regional Counsel, at (215) 597-7419.

Sincerely,

  
Elaine Wright, Director  
Air, Radiation and Toxics Division
